- The planning and programming phase for most schools is nearing completion. Firms are working with school leaders and their communities to develop designs that incorporate the best in modern education, for everything from classrooms to sports facilities.

- Architects are assessing the facility condition of each of the Bond schools to define the scope of projects in detail. This task is nearing completion.

- The design process is expected to take up to one year for the larger high school projects.

- Construction contractors have been assigned to their respective projects.

- Project Advisory Team (PAT) meetings are being held at the campuses.
 - The teams consist of a mix of community members and staff from the school. Additionally, principals at high schools have the option of selecting student representation. Representatives from District departments like fine arts, athletics, and various curriculum subjects are also invited to attend and provide input.

- PAT meetings completed:
 - Houston HS, March 21st
 - Irving Academy, March 21st
 - J.T. Brackenridge, March 22nd
 - Bowden Academy, March 22nd

- Upcoming scheduled meetings:
 - Brackenridge HS, March 28th @ 4:30 p.m.
 - Rogers MS, March 29th @ 9 a.m.
